

Jason Dela Cruz Jose

Computer Engineer · Systems & Network Architect

jason.jose@3jltechnologies.com · +1 415 325 9015 · www.3jltechnologies.com · Daly City, San Francisco, CA

SUMMARY

Computer Engineer with 26+ years architecting, deploying and operating enterprise IT, cloud and physical-security systems across the Philippines, Qatar and the United States. Founder of 3JL Technologies, delivering Azure, automation, networking and full-stack MERN solutions to SMBs.

EXPERIENCE

Founder & CEO — 3JL Technologies LLC.

Aug 2025 – Present · Daly City, CA

- Founded a Bay-Area tech consultancy delivering IT systems administration, Azure cloud, automation & compliance tools to SMBs.
- Lead end-to-end strategy: service design, client acquisition, financial management and brand.
- Ship Active Directory, network admin, CCTV integrations & full-stack MERN apps for clients.
- Designed automation for immigration services and home-healthcare agencies that streamlines operations.

Control Room Operator (PSIM Security System) — Kahramaa Electrical & Water Corp.

Oct 2018 – May 2025 · Qatar

- 24/7 surveillance monitoring across all Kahramaa buildings, substations and water reservoirs.
- Administered VIDSYS PSIM platform — configuration, user management, incident reporting.
- Built training plans for new CROs and recommended reliable monitoring work-processes.

IT Administrator — LANE MidEast Qatar

Jul 2014 – Feb 2018 · Doha, Qatar

- Owned the entire IT infrastructure for 100+ employees across cloud, AD, M365, Autodesk and JD Edwards.
- Planned, procured, deployed and maintained hardware, software and security policies.
- Managed multi-site backups, antivirus posture and helpdesk operations.

IT Engineer — Concordia Capital, LLC

May 2012 – Jul 2014 · West Bay, Doha, Qatar

- Designed multi-server, network and DR strategies for a financial firm.
- Managed full Apple infrastructure: firewall, servers, switches and workstations.
- Operated PABX & access-control systems alongside LAN/WAN engineering.

Systems Engineer — IP Converge Data Center

May 2011 – May 2012 · Makati City, Philippines

- Supported 120 clients including disaster-site office; managed AD, file & print servers.
- Documented all network devices and configurations for rapid response.

Network & Systems Administrator — Able Global Logistics

Sep 2006 – May 2011 · Makati City, Philippines

- Owned systems administration, security, and resource monitoring across the company.
- Planned and tested new application systems aligned with business needs.

IT / Butler — Traders Hotel Manila

Oct 2002 – Sep 2006 · Pasay City, Philippines

- First-line technical support for 300+ staff and in-house guests.
- Troubleshoot software & hardware for guests and front-of-house operations.

SKILLS

Infrastructure & Cloud — Active Directory, Windows Server 2003–2022, Microsoft Azure, Hyper-V, SharePoint, Microsoft 365, JD Edwards

Networking & Security — LAN / WAN, DHCP / DNS / TCP-IP, Firewalls & Switches, PSIM (VIDSYS), PABX & Access Control, CCTV Integration

Development & Web — MERN Stack, HTML5 / JavaScript, Bootstrap, WordPress, Website Development, Automation Workflows

Creative & Design — 3Ds Max, Adobe Photoshop, Illustrator, InDesign, Dreamweaver, AutoCAD / Civil 3D
